Practices in Finland/UK exchange programme announced by the Architectural Foundation

The Architecture Foundation (UK) has announced the sixth country with which it will undertake an exchange programme. Working in close collaboration with the Finnish Institute in London and the Museum of Finnish Architecture, the Architecture Foundation has selected six design practices to take part: Archipelago, Pie Architecture, and Studio Polpo from the UK, and ALA Architects, Anttinen Oiva Architects, and Avanto Architects from Finland.

Each of the six ambassadors will take part in a reciprocal programme of events organised by the Architecture Foundation, including public lectures, workshops, studio and site visits, and networking events, in an effort to further develop dialogue and cultural exchange between practices from both countries. The Finnish architects will visit London in January 2012 with the British architects scheduled to travel to Finland in February 2012.
